

2026 CATALOGUE

HITRONS SOLUTIONS INC.

Hitrons Solutions Inc., is a NMSDC certified minority-owned and family business. We based in New Jersey and a distributor for products in various categories including **kitchen, home, grocery, bath, toys, storage, electronics, pet** and more. We deliver omnichannel branded and private label products to and are direct vendors with the retailers below. We also believe in the importance partnering with mom and pops. We ship to DC's, stores and drop-ship directly to customers and are EDI capable. We have domestic warehouses. We source unique and quality products to fill in your blank space every year and our assortment continues to grow. You can view them here on RangeMe: https://range.me/c_ty6h6OxZ_58dV9SqQ6Zg. **Most of our products are made in South Korea.** We donate money and overstock to local communities and educational centers in New Jersey.

Pterosis Liquid Tea for Health

Daily Wellness Tea for a Healthy Life!

Wonder Pterosis

It is a liquid extract containing high concentrations of pterosis from bracken fern rhizome

Contain high concentrations of pterosis

Containing high concentrations of pterosis (A, B, C, D, N) from bracken fern with the addition of ginger, which is good for osteoporosis.

Support memory improvement

Supports cognitive function and memory enhancement, promotes neuroprotection, and helps maintain immune health to guard against common colds.

Supports joint health and bone strength.

Helps alleviate joint discomfort and supports bone health.

Help improve long-term brain function

Supports long-term brain health and function.

Product Name Wonder Pterodin

Packaging Size 2.37 fl oz x 30 pouches

Food Category Liquid extract

Raw materials & content Bracken fern extract 98.9% [Bracken fern (Republic of Korea) 16.8%, purified water],
Jujube (Republic of Korea) 1.2%

How to intake It is good to take 1 or 2 pouches 1 time a day in the evening.
Taste may vary slightly depending on the season due to the nature of bracken.
If you are sensitive to a specific ingredient, please check the ingredients before consuming.
Take it immediately as it may deteriorate or store below 4°C after opening.
You can enjoy it hot or cold depending on your preference.

It is a liquid extract containing high concentrations of pterosins from bracken fern rhizome

Nutritional Value of Bracken Fern

High concentrations of pterodin A, B, C, D, and N from bracken fern.

Benefits of Ginger

Ginger contains dehydrozingerone, which helps support joint health and maintain strong bones.

Global Patent Achievement

We've done research on pterosins contained in the rhizome of bracken fern, and published its health benefits in Journal of Medicinal Chemistry in 2019, and applied and registered related patents in Korea, U. S. A., China, and EU

Health Benefits of Pterosins

Pterosins are shown to enhance cognition and memory, support neuronal regeneration, and help protect against viral infections like COVID-19, influenza, and the common cold.

Premium Jeju Matcha for a Rich, Creamy Finish in Every Sip

COFFEE BEAN MATCHA LATTE

Enjoy the perfect balance of premium volcanic-grown matcha and creamy sweetness in convenient, single-serve sticks.

PREMIUM JEJU ISLAND ORIGIN

Crafted with high-quality matcha sourced from the nutrient-rich volcanic soil of Jeju Island. A pure, vibrant green tea profile that stands out.

BARISTA QUALITY IN SECONDS

No whisk or extra ingredients needed. Just add water or milk to create a rich, velvety café-style latte at home, work, or on the go.

PERFECTLY BALANCED FLAVOR

The ideal harmony of earthy matcha notes, light sweetness, and a smooth, milky finish. Designed to please both matcha connoisseurs and newcomers alike.

VERSATILE HOT & ICED PREP

Dissolves effortlessly in hot water for a cozy treat or mixes beautifully with cold milk and ice for a refreshing pick-me-up.

Product Name	Coffee Bean Matcha Latte Sticks	Key Ingredients	Premium Jeju Matcha, Non-dairy Creamer, Cane Sugar
Unit Count	8 Single-Serve Sticks per Box	Shelf Life	12 - 18 Months
Net Weight	5.64 oz (160g)	Storage	Store in a cool, dry place

COFFEE AND BEVERAGE

HAND DRIP ORIGINAL COFFEE BLUE MOUNTAIN 100 20 PACKETS

All-in-one hand drip coffee product set

- ✓ Contains delicately roasted 100% Blue Mountain coffee (Papua New Guinea)
- ✓ Features citrus aroma, sweet flavor, and rich body
- ✓ Nitrogen-filled packaging for freshness
- ✓ Produced in ISO 22000 and HACCP certified facility, FDA registered
- ✓ Ideal for home or outdoor hand drip coffee brewing

HOW TO DRINK

Put coffee grounds in a paper cup dripper and pour hot water over them.

EARL GREY VANILLA LATTE 8 PACKETS / 40 PACKETS

Earl grey tea-based milk coffee

- ✓ Product from globally recognized brand, The Coffee Bean & Tea Leaf
- ✓ Creamy, silky texture for a soft drink sensation
- ✓ Unique blend of Earl Grey tea, rich vanilla, milk, and coffee
- ✓ Individually sealed sticks with a simple tear design
- ✓ Made in ISO 22000, HACCP, FDA registered facility

HOW TO DRINK

1. Add a packet to 100ml of hot water and stir.
2. Add a packet to 60ml of hot water, then add as much ice as you like.

Naturally Fermented Wellness Tea Series

Crisp Apple & Warming Ginger – Brewed for Health & Harmony

Warm comfort in every sip

Fermented Ginger Tea

0.07 oz (2g) X 20 Tea Bags

- ✓ Made from naturally sweet and spicy ginger
- ✓ Promotes digestive balance and warmth
- ✓ Bold yet smooth flavor with earthy finish
- ✓ Ideal for cold seasons or daily revitalization

How to Enjoy:

- ① Steep in hot water (6.8 fl oz) for 2–3 minutes
- ② Discard the first steeping
- ③ Reuse the tea bag for a second cup or foot soak

A sweet and tangy sip of nature's vitality

Fermented Apple Tea

0.07 oz (2g) X 20 Tea Bags

- ✓ Naturally fermented with locally grown Andong apples
- ✓ Supports digestion and daily wellness
- ✓ Refreshing, crisp, and fruity flavor
- ✓ Smooth aroma with gentle tartness

How to Enjoy:

- ① Steep in 6.8 fl oz (about 1 cup) of hot water
- ② Discard the first brew if desired
- ③ Enjoy the second brew — or reuse as a bath soak

Phyto-Plastics Nano PLA

Innovation compounding Technology
Biodegradable Polymer
Phyto-resin manufacturing
Sustainability ESG products & Green packaging System
Solution for Zero carbon & Green footprint

ANGEL  **GREEN**
Biodegradable

www.dowonbiotech.com
www.angelgreen.net

Phyto plastics & Nano PLA (Poly lactic Acid with nano cellulose)

We specialize in compounding biodegradable natural raw materials that can be completely controlled by adjusting physical properties to improve processability. Research and develop biodegradable resins suitable for extrusion, injection, and blowing, for produce them with excellent moldability. Dowon's compounding manufacturing technology suitable for biodegradable and natural-based bio-materials to be sustainable ESG products and could replace chemical plastics. Microplastics, marine waste pollution, carbon emissions, and climate temperature changes can be solved. In addition, all the materials and products produced by our company are designed to carry out the Zero Carbon Emissions process, which produces no contamination of soil, air, and water during the process.

About Phyto-resin(Compostable & Biobased)

Phyto-Resin

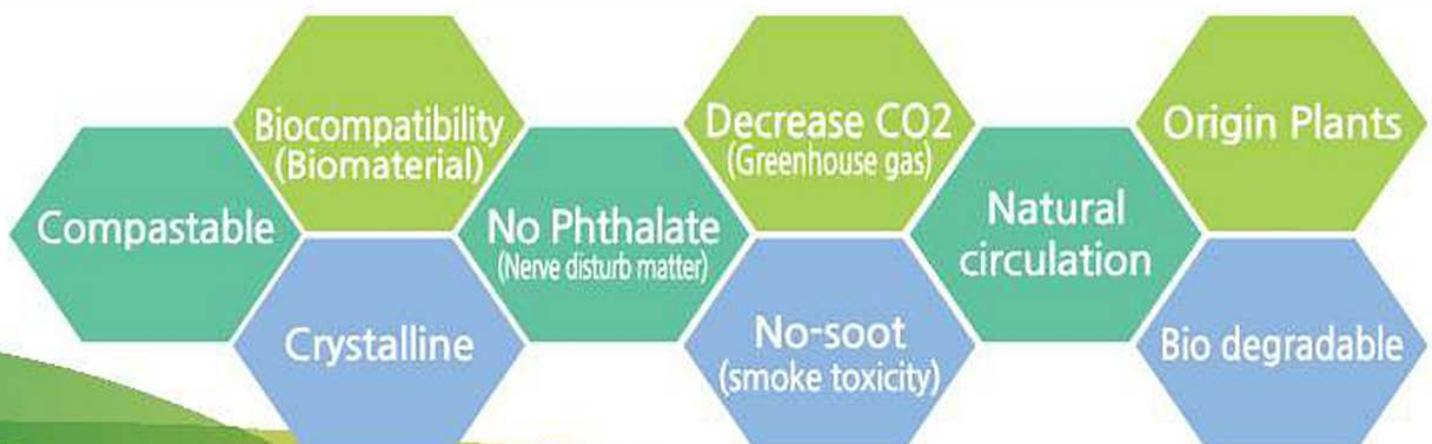

Nano-cellulose

DWP 616(injection)

The biodegradable composition developed by the patented, our Nano polymer company is a plant-based (PLA) and raw material characterized by own compounding technology. Injection raw materials (DWP616 Resin), which received 82% USDA (excluding water and dyes), did not use any chemical additives or plasticizers. NanoPLA was prepared without using calcium carbonate and silica at all. A 100% plant-derived natural-based plastic raw material manufactured with Dowon technology is called 'Phyto-plastic'. It produces reduce carbon about 78% and not occur to environmental pollution. Even when a baby with weak skin comes into contact, it consists of natural ingredients that are safe from 12 environmental hormones, 7 heavy metals, and atopy(allergy)

Total Bio-Polymer Solution

Phyto Plastics_Compounding Resin Application

DOWN

When the additive is naturally compounded, thermal properties are further improved, physical properties adapted and suitable for extrusion, injection, and blowing processing. That is why created as a technical skill for preparing 'Phytoresin'.

The natural composition complements the processing shortcomings of biodegradable raw materials (cracked, twisted, low temperature, hydrolysis, amorphous, moisture absorption, etc.) to complete the high quality.

ZOENOX

SEALVINO

01 VACUUMING

It's Simple. Push to Vacuum, Pour to Serve.

The syringe is no foreign object to us. It adopts the piston mechanism to create a vacuum while releasing liquid through the nozzle. We see the piston mechanism utilised in everyday life- at the dentist, at the zoo, in doctor play sets for children.

It might even be used as part of your morning routine (French press coffee anyone?).

Zoenox applies the same system to preserve and serve wine with ease.

Transfer the remaining contents of your wine bottle to Zoenox, and press down to release air.

It dispenses in the same way as a regular bottle or carafe, but keeps what's left in the bottle unexposed to air.

Adamhyang Korean Mugwort Tea

0.04 oz (1g) * 25 Tea Bags

Sajabal mugwort, grown exclusively on Ganghwa Island, is cultivated without pesticides and is certified as an eco-friendly agricultural product. Even ladybugs, which are rarely seen elsewhere, are a familiar sight at the Ganghwa Medicinal Mugwort Garden.

The **tea bag type** Fermented Adamhyang Mugwort Tea is made after **collecting upper-part leaves from mid-May**, washing them, and then aging, cutting, roasting, fermenting and drying them. **The medicinal effects** of Sajabal medicinal mugwort **doubles through the fermenting process**. This tea can be taken after being leached in water (500cc) of 80 degrees. This is a high-quality tea with **remarkable medicinal effects**, and it is not bitter and has a **good taste and aroma** through the roasting and fermenting process.

How to Enjoy Our Carefully Roasted Handcrafted Tea

For a warm drink:

Place one tea bag in a cup of hot water (80°C / 176°F) and let it steep gently for about 2 minutes.

For a cold drink:

Place the tea bag in cold water and let it steep slowly, or brew it first in 20ml of hot water (80°C / 176°F), then add cold water and ice before drinking.

HA:L

RPS.3

Our brand's philosophy is for perfect skin from the basics.

Our brand strives to fundamentally solve customers' skin problems. Our ampoules are created by combining the latest technology with the gifts of nature. Join HA:L RPS.3 for healthier and more beautiful skin.

SIGNATURE BASE AMPOULE

A base ampoule was created by adding hypoallergenic and moisturizing ingredients. It is simple yet made with the addition of high content of basic ingredients necessary for the skin. It can be used alone even for sensitive skin, and mainly contains moisturizing, soothing, and skin regenerating ingredients.

GREEN-CICA AMPOULE

Centella asiatica extract, which is effective in soothing the skin, gives a strong moisturizing effect. Experience skin full of moisture.

WHITENING.H AMPOULE

As a result of hypoallergenic clinical testing, it can be used on sensitive skin, and it makes clean and clear skin with whitening care and radiance tone-up effects.

CALMING-RED AMPOULE

Used for effective skin improvement, Calming Red is effective in managing ever-deepening wrinkles.

THE BEST OF SWISS MILK FOR DOGS

High quality and healthy products made from Swiss milk - we are passionately committed to this

OUR SWISS MILK

Milk is healthy. It contains a lot of valuable milk protein for muscle and cell building and calcium, an important building block for healthy bones and teeth. Milk also contains vitamins A, D and E as well as important minerals such as potassium, magnesium and phosphorus. That's what makes milk so special.

OUR SWISS DAIRY COW HUSBANDRY

Switzerland consists of many small farms and mountain farms. With an average of only 26 cows per farm and a lot of regular exercise out in the fresh air, Swiss dairy cow husbandry is particularly animal friendly. We obtain the milk for our products mainly from mountain farms in sunny Toggenburg and thus support and strengthen the region.

OUR PRODUCTS - WELL TOLERATED

We process the valuable raw material milk into high-quality and particularly well-tolerated products for dogs and cats. All our products are free of lactose, gluten and preservatives. We achieve this through the unique recipe and the particularly long maturation of more than 2 months.

CHEESE BARS - ORIGINAL

S

L

For small and large dogs
Content: 80g

- ✔ Long lasting chewing pleasure
- ✔ A lot of valuable protein and calcium
- ✔ Made from 100% Swiss quality milk
- ✔ More than 2 litres of milk per 80g
- ✔ Matured for at least 2 months
- ✔ Lactose-free, gluten-free, vegetarian
- ✔ Without any preservatives

CHEESE CHIPS - FOR BAKING

Content: 80g

- ✔ Chips cut from our Cheese Bars
- ✔ To bake yourself in the microwave or oven
- ✔ Lactose-free, gluten-free, vegetarian

- ✔ Ideal for training, pocket size about 1cm
- ✔ High in protein and calcium
- ✔ Lactose-free, gluten-free, vegetarian
- ✔ Made from 100% Swiss milk
- ✔ In 4 varieties available

Premium SUPER-ABSORBENT

Dog Pad with Upcycled Diaper

FOR PET AND ENVIRONMENT

6-Layer Structure of Product

Dry Cover

Soft and quick-drying surface that keeps your dog's paws clean and dry. It allows urine to pass through instantly while maintaining a dry top layer.

Nonwoven Fabric

A breathable mesh layer that helps evenly distribute liquid and prevents reverse flow. Supports durability and structural integrity.

Upcycled Pulp

Quickly locks in liquid and transforms it into gel to prevent leaks and surface rewetting. This advanced absorbent core provides exceptional moisture control, even with multiple uses—keeping your pet dry and your floor protected.

High Content of SAP

Locks in liquid fast and turns it into gel to prevent leakage. This core layer ensures high absorbency, even under repeated use.

Nonwoven Fabric

Secondary stabilizing layer that holds the SAP in place and adds extra protection. Reinforces the structure to reduce leakage and improve comfort.

Waterproof Film

A leak-proof bottom layer made of polyethylene that protects floors and carpets. Perfect for indoor use, crates, or travel—no spills, no mess.

 - Suitable for: Dogs up to 10kg

The image features a dark blue background with a white geometric pattern. Two thick white lines intersect at the center, forming an 'X' shape that divides the space into four quadrants. The word "Cleaning" is written in a bold, white, sans-serif font, centered within the upper-left quadrant of the 'X'.

Cleaning

Eco Hi-Ball

COSMILE

Deodorant for Home & Other Uses.
MULTIPLE USES!

Fresh Fridge & Fresh Air

Cosmile (deodorant for home & other uses) makes sure the home stays fresh and delays food spoilage with its excellent deodorant and antibacterial effects by using porous bioceramics technology.

Effects

1. Antibacterial effects inside the home
2. Antibacterial effects inside the refrigerator, other uses
3. Maintain the freshness of foods
4. Purifies the air with antibacterial effects inside hermetically sealed space (the wardrobe, closet, shoe rack, bathroom, bedding, studying room, etc).

Inside the refrigerator

Closet

Shoes rack

Bathroom

Bedding

Room

Features

1. Cosmile inhabits harmful bacterial generation and removes existing odors.
2. Cosmile uses bioceramics which have anionic effects which prevents foods from being spoiled.
3. Cosmile is all natural and contains no chemicals.
Charcoal: Neutralizing 0.3mg/g of toxic substances.
Cosmile: Removing 0.5mg/g of toxic substances

Anionic, far infrared effect

Dust removal and antimicrobial function: Anions neutralize contaminated particles with excellent air purification function. Various pollutants which exist in the refrigerator, such as sulfurous acid gas, nitrogen oxides, Formaldehyde, carbon monoxide, and ozone are hardened and precipitated, thus inside air is kept freshly.

Expected effects

1. Ensuring superior performance compared to the price
2. Environmental pollution: There is no environmental pollution due to inorganic ceramic.
3. Effective value of product: The best optimal company PR item due to superior performance compared to price.

Note

1. Place COSMILE (for Home) in wanted place inside the house (on top of the desk, shoe rack, closet, refrigerator, etc.).
2. Place Cosmile under the sunlight for over 2 hours every two weeks or whenever you feel its deodorization effect is insufficient. It will help maintain high deodorization effect.

Instructions of Use

In the Washing Machine

1. Load the washer with clothes normally then drop the "Eco Hi-Ball Power Clean" in and fill the washer with desired water.
2. It is recommended but not required to soak the "Eco Hi-Ball Power Clean" in the water along with the clothes for 20~30min, give time for the bio-ceramics inside the "Eco Hi-Bal Power Clean" to dissolve with the water for maximum effectiveness.
3. Wash through all cycles normally.
4. Remove "Eco Hi-Ball Power Clean" after final spin cycle.

Deodorizes!
Sanitizes!
Kills Bacterial!
As Effective as Detergent!

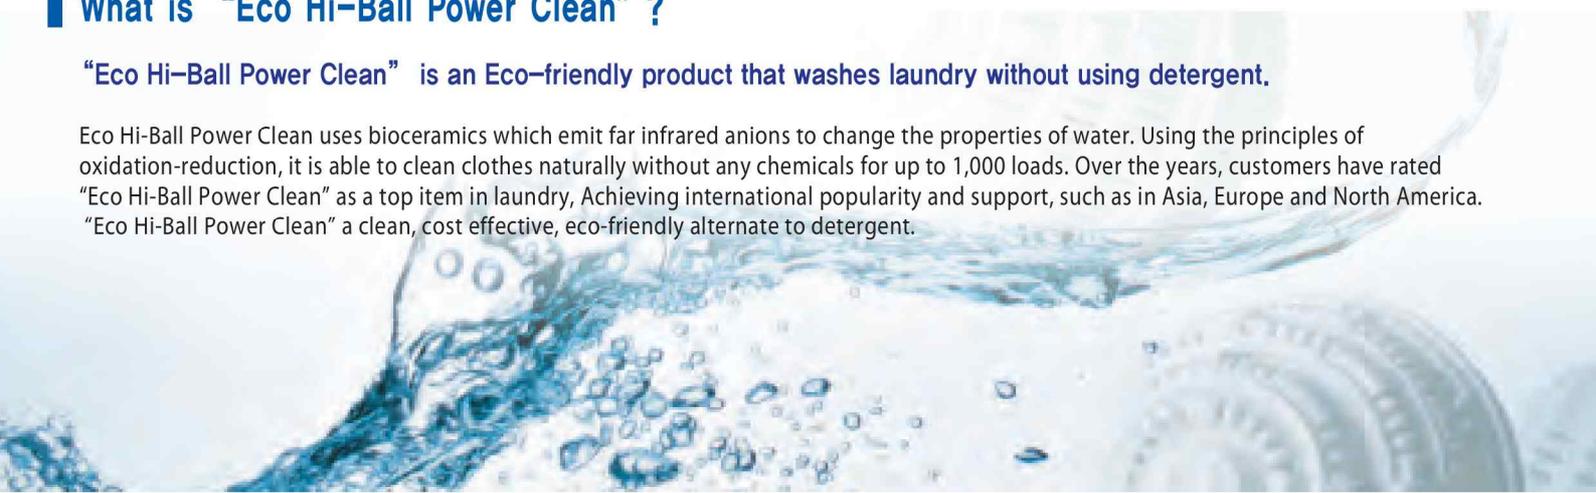

For Best Results

1. Leave "Eco Hi-Ball Power Clean" in the washer from beginning to the end of the entire laundry cycle.
2. "Eco Hi Ball Power Clean" is tested to be as effective as detergent, however tough stains will still need to be pretreated.
3. It is ok to add a little bit of detergent or bleach. It will not negatively affect the "Eco Hi-Ball Power Clean".
4. Effects will be maximized if the load is pre-soaked before washing.
5. Select "Normal" Wash cycle instead of "Light"
6. Do not overload the washing machine.
7. Important—Dry "Eco Hi-Ball Power Clean" in direct sunlight, preferably outside, once every 2 weeks to release the odors and enhance the bioceramics performance for continuous use.

What is "Eco Hi-Ball Power Clean" ?

"Eco Hi-Ball Power Clean" is an Eco-friendly product that washes laundry without using detergent.

Eco Hi-Ball Power Clean uses bioceramics which emit far infrared anions to change the properties of water. Using the principles of oxidation-reduction, it is able to clean clothes naturally without any chemicals for up to 1,000 loads. Over the years, customers have rated "Eco Hi-Ball Power Clean" as a top item in laundry, Achieving international popularity and support, such as in Asia, Europe and North America. "Eco Hi-Ball Power Clean" a clean, cost effective, eco-friendly alternate to detergent.

Specification

Product Name	Eco Hi-Ball for Dishwasher		
Size	200mm x 16mm	Shape	Circle Type (Disc)
Weight	380g	Component	Specific Ceramic Balls
Material for Cover	Heat-resistant PP	Composition	1

Product Summary

- As an alternative to dishwasher detergents that contain harsh chemicals, the Eco Hi-Ball cleans your dishes without using any detergents. The Eco Hi-Ball protects your family's health by killing 99.9% of germs, while removing food remains that otherwise might remain on your dishes.
- Detergent-free Eco Hi-Ball purifies the water, removing water scale, bacteria, mold and odors in dishwasher and drain, keeping your dishwasher as shiny as new.
- The Eco Hi-Ball is very environmentally friendly. Using Eco Hi-Ball, you are putting absolutely no harmful detergents or chemicals into the environment.

Features

● Activation of water molecules

Eco Hi-Ball activates ordinary tap water by increasing the ionization of the molecular structure (the microscopic positive and negative electrical charges on the surface of atoms).

● Disinfection

Eco Hi-Ball has superior disinfection properties, eliminating odors, mold and harmful bacteria.

● Purification

Eco Hi-Ball protects your family's health by purifying the water, removing chemical residues such as detergents and chlorine not only from the water but also from your dishes.

● Oxidation (detergent effect)

The powerful detergent effect of Eco Hi-Ball means that there is no need for any chemical powders or liquids.

Ordinary chemical detergents works by reducing the attraction between water molecules, making them less 'sticky' – in other words, they make water 'wetter'. The oxidation effect of Eco Hi-Ball works like a detergent by making the water molecule cluster smaller, reducing the viscosity of water – but without using any chemicals.

● Anti-corrosive properties

Eco Hi-Ball inhibits metal corrosion (rusting), extending the life of your dishwasher and drains by keeping them clean and shiny.

● Environmentally friendly and safe

Because it contains no chemicals, you are not putting any harmful chemicals into the environment.

Eco Roll Cleaner

Clothes

Sofa

Floor, Wall, Ceiling

Pet Fur

Baby Goods

Bedding

Inside of a Car

Other Living Dust

Characteristic Point

- New Technology Products registered as a Patented Technology
- Excellent semi-permanent economical use by washing with water
- Confirmed 30 major non-detection tests of hazardous substances!
- The Soft Gel is with a strong adhesive force to collect all the dirt on the cleaner!
- Verified 50,000 times by the adhesion test performed at an authorized laboratory!
- Eco-friendly & economical product that reduces waste disposal.
- Elastic and flexible gel can reach every corner & narrow gaps.
- 100% Korean technology-based reliable products made with advanced production.
- Separating different colors/uses makes it more convenient to be hygienic. (Clothes, Bedding, Floor carpet, Pet, Baby, Car, etc.)
- Sophisticated design makes it more convenient functionally.
- Stand-type and integrated structure make it easy to store without a case.
- High quality with improved cleaning power and surface water repellency, due to development of the high surface roughness.

Usages and Effects of Eco Roll Cleaner

- **Clothes** – remove all kinds of dust, dandruff, hair, and black dust.
- **Sofa** – Crevices, deep spaces between the seams, and pressed dust.
- **Floor, Wall** – Various kinds of Carpet & floor dusts
- Pet hairs hiding everywhere.
- **Baby Products** – Protect your baby from the dust which is the origin of germ - Doll, stroller, bedding before/after laundry, bed corners.
- **Bedding** – removes dirt that does not disappear even when washed.
- **Inside the car** – Clean every corner, seat, as well as the trunk that can not be washed even if you brush it off.
- Keep clean for a long time with strong adhesive force and renewable power.

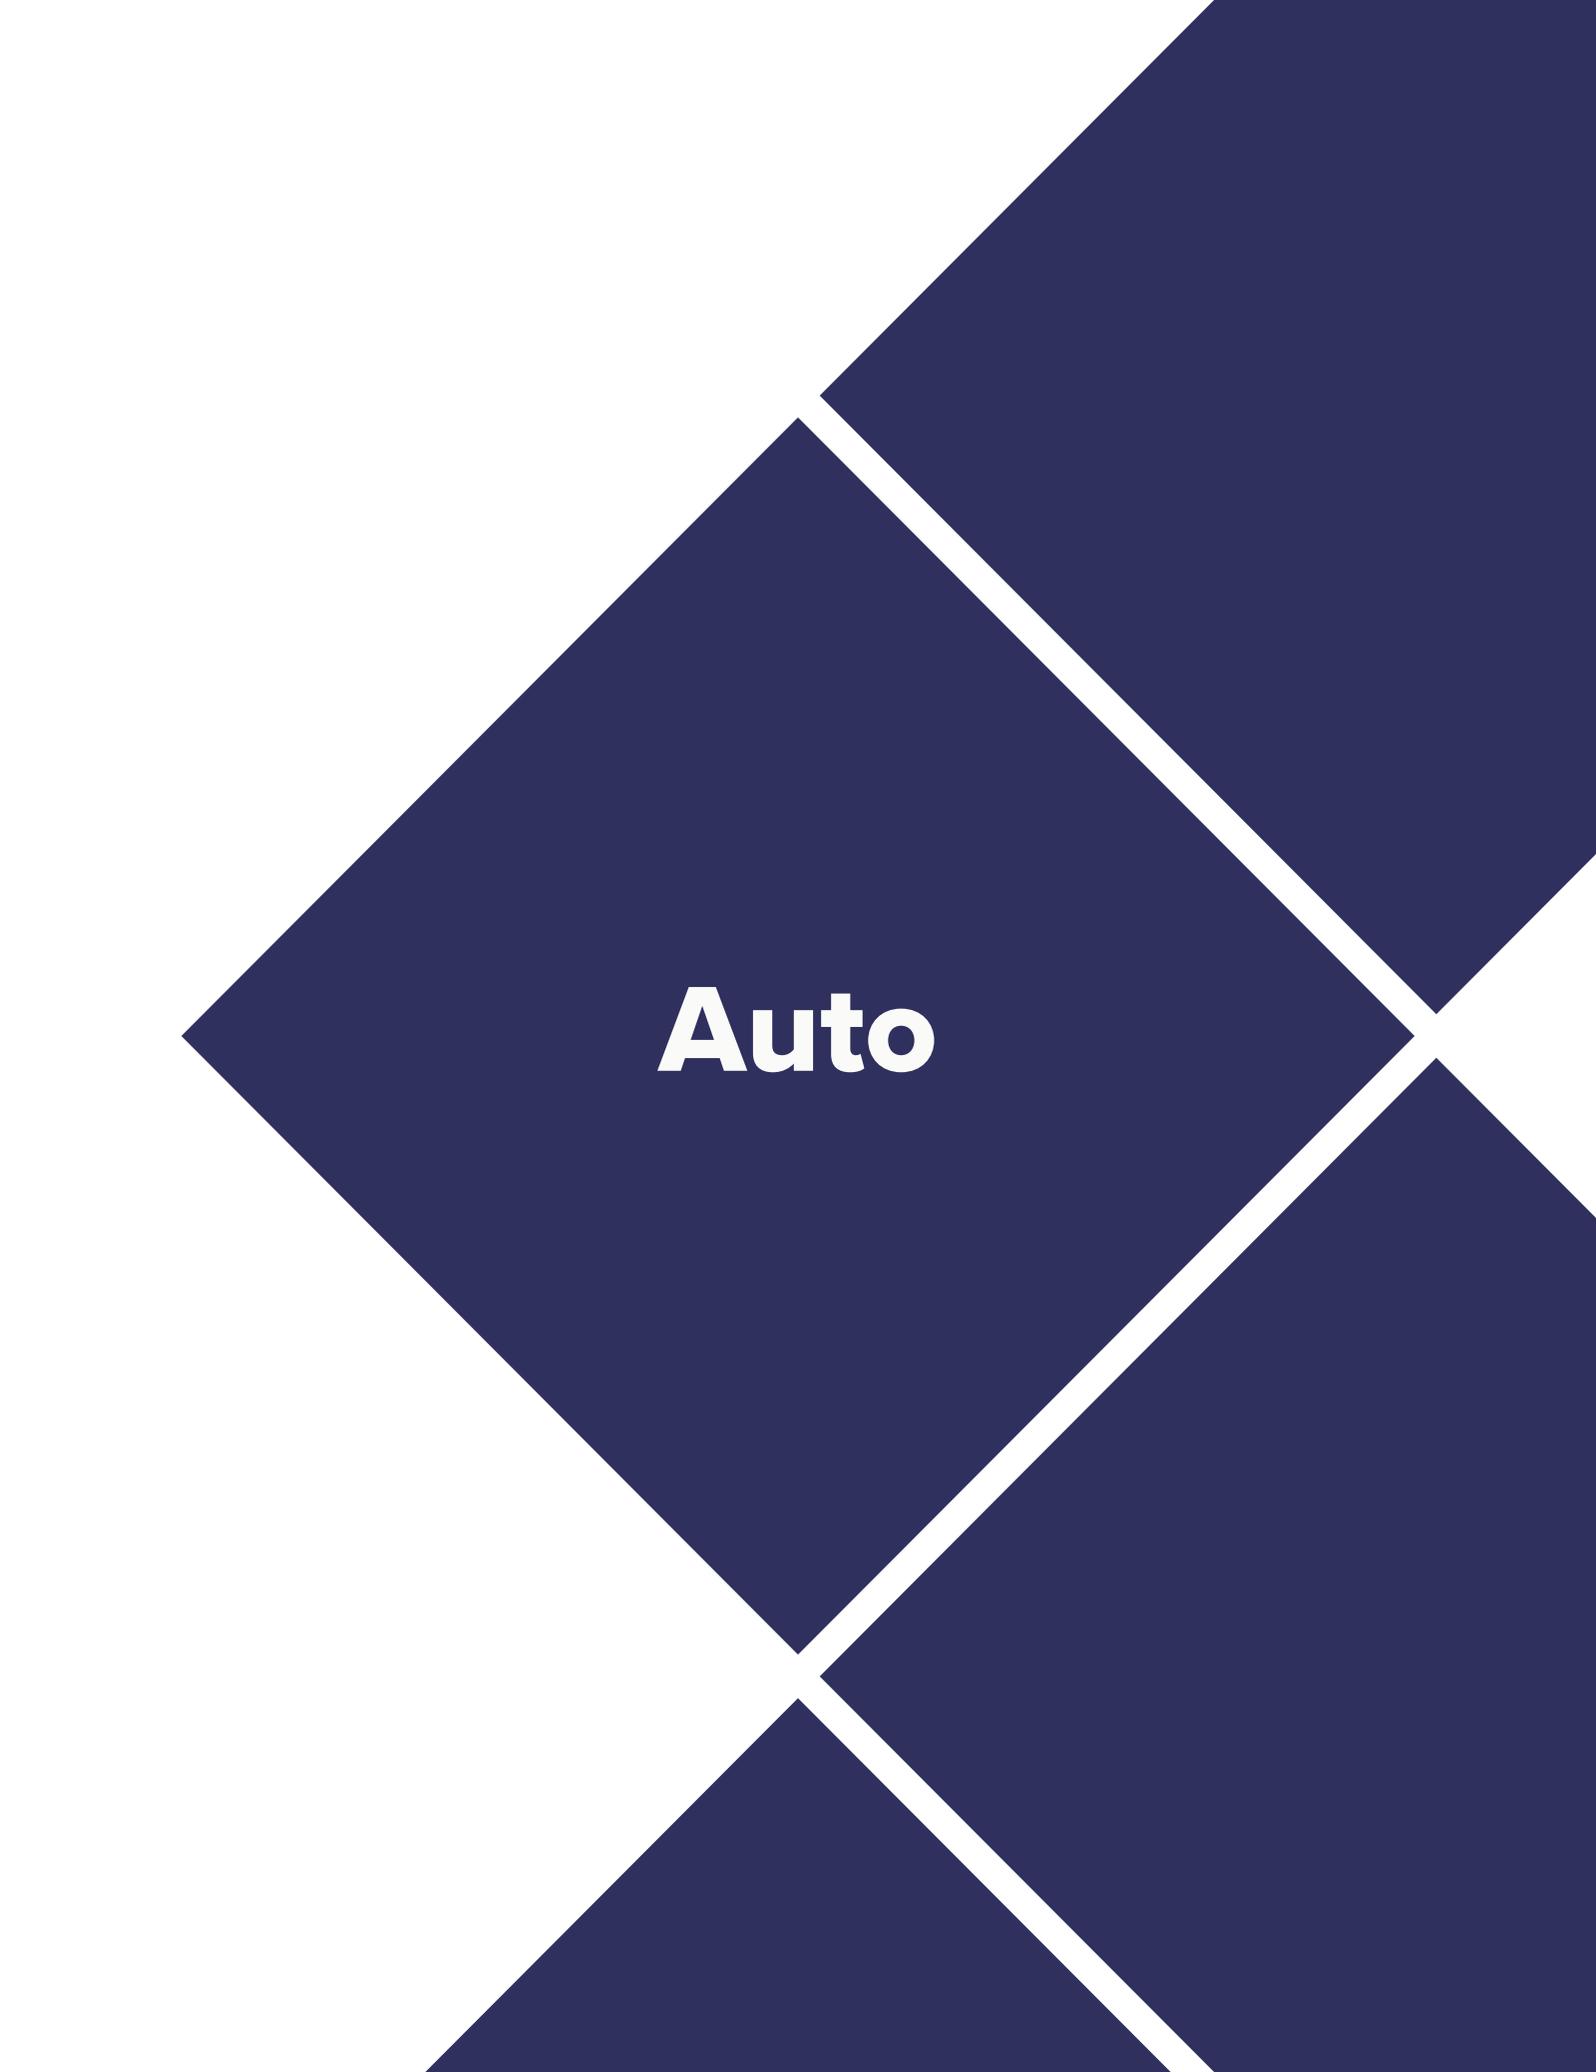

Cleaning Method of Eco Roll Cleaner

- Rubbing the surface in water or running through water gently.
- Since it may be difficult to re-assemble for children, we recommend washing without disassembling.
- You can use it again immediately after removing the water completely.
- You may use a neutral detergent for better results when adhesiveness decreases. (Oil dust is the cause of deterioration of detergency and viscosity.)

Windshield Protection film Max

- Excellent water repellency
- Superior impact resistance
- Easy installation without heat
- High clarity and visibility
- Self-healing function

MAX is born from TERASHIELD's unique polymer blending and coating technology – not from conventional PET or TPU materials. Crafted with a high-elasticity advanced film, it offers an easy and quick installation experience for everyone.

Specification

Product	VLT(%)	IRR(%)	UVR(%)	Thickness (mil)	APPLICATION
MAX	>90	7	99	7	windshield, rear window

Windshield Protection film Max+

- Excellent water repellency
- Superior impact resistance
- Easy installation without heat
- High clarity and visibility
- Self-healing function

MAX+ enhances this high-elasticity material with IR-blocking performance through the same differentiated polymer and coating technology. With surface tension technology achieving a contact angle of over 110°, it delivers world-class water repellency and superior heat-blocking capability.

Specification

Product	VLT(%)	IRR(%)	UVR(%)	Thickness (mil)	APPLICATION
MAX+	70	>80	99	7	windshield, Sunroof, rear window

Paint Protection film Handy

- Paint finish protection
- Non-yellowing
- Easy application
- Resistant to corrosion and stains
- No residue

PPF-HANDY is an affordable solution designed to protect the most scratch-prone areas of a vehicle's painted surfaces, offering both cost-effectiveness and reliable performance.

Specification

Product	Tensile Strength (MPa)	Elongation (%)	Gloss (°)	Y.I. (ΔE)	Thickness (mil)
HANDY	16	≥291	>90	<1.5	7.3
